

This property offers ENERGY STAR® refrigerators, dishwashers, and laundry machines.

WHIRLPOOL® + ENERGY STAR®

Saving Money and Protecting the Environment through Energy-Efficient Products for Your Home

Did You Know?

- ▶ ENERGY STAR qualified refrigerators require about half as much energy as models manufactured before 1993.*
- ▶ Replacing a refrigerator manufactured before 1993 with a new ENERGY STAR qualified model would save enough energy to light the average home for more than 4½ months.*
- ▶ If just one in ten homes used ENERGY STAR qualified appliances, the change would be like planting 1.7 million new acres of trees.

Green Leaders

Whirlpool Corporation has a history of being green. In fact, we've helped homeowners reduce their appliance energy consumption by 70% since the 1970s. By partnering with ENERGY STAR, we build upon that legacy as we continually strive to find new ways to carry on the green initiative.

- ▶ The Whirlpool Corporation family, including Maytag brand, has received **22 ENERGY STAR awards**—three times more than any other winner.
- ▶ Recognized with a fifth consecutive ENERGY STAR **Partner of the Year Award for Sustained Excellence** (the company's 11th ENERGY STAR award), Whirlpool has been honored with 22 ENERGY STAR awards overall—more than any other appliance manufacture.
- ▶ Whirlpool Corporation ENERGY STAR qualified refrigerators, dishwashers and clothes washers will save 70 billion kWh over their twelve-year life spans—enough energy to power half the households in California.
